

My snowman has an ellipse shaped head that is whitish and bluish. His head has a v shaped nose that is orange. The snowman has eight dots for his mouth. And two buttons for eyes.

Now make the body. What you do is you make a big circle not too big. Next the middle snowball is a little bit smaller but not as small as the head you want to make sure round to like a circle or an ellipse. For the head you need it to be smaller than all of them make sure of it. Especially smaller than the middle one don't get them mixed up.

One important thing is the hat. The snowman's hat is white with a pink flower on it. Then it is the arms. The arms are brown and the both have three fingers. Later on you put on more dot's on the belly. That is how you draw a snowman.
